About the IMF

The International Monetary Fund is an organization of 189 countries, working to foster global monetary cooperation, secure financial stability, facilitate international trade, promote high employment and sustainable economic growth, and reduce poverty around the world. The IMF is a trusted authority with decades of experience, and its data and reports on the global economy are the most timely and reliable resources available.

IMF eLibrary: where leadership and information merge.

Every day, IMF information is used by governments, academics, businesses, and the media. Subscribe now to the eLibrary, and make the IMF's unrivaled research and statistics on financial and economic developments the most valuable asset in your own work.

IMF eLibrary

Global economic knowledge at your fingertips

elibrary.imf.org

An indispensable tool for economic research and analysis...

The IMF eLibrary simplifies analysis and research with online access to the IMF's periodicals, books, working papers, surveys, and statistical data. You will find information on economics, business and finance, public policy, global development, international trade, law and taxation, inequality and poverty reduction, and much more.

- Integrated with all major discovery and indexing solutions
- Usage reporting, MARC records, and Excel metadata
- Crossref integration adds a new level to research, with the ability to trace references to publications and original sources
- Recommended Reading lists provide curated suggestions on titles to read.

USA	1955	Annual Report on Exchange Arrangements and Exchange Restrictions (AREAER) for 1955
USA	1956	Annual Report on Exchange Arrangements and Exchange Restrictions (AREAER) for 1956
USA	1957	Annual Report on Exchange Arrangements and Exchange Restrictions (AREAER) for 1957
USA	1958	Annual Report on Exchange Arrangements and Exchange Restrictions (AREAER) for 1958
USA	1959	Annual Report on Exchange Arrangements and Exchange Restrictions (AREAER) for 1959
USA	1960	Annual Report on Exchange Arrangements and Exchange Restrictions (AREAER) for 1960

AREAER Online

The *Annual Report on Exchange Arrangements and Exchange Restrictions* (AREAER) tracks the exchange rate and trade regimes of all IMF members. The online database provides in-depth country information on the operation of foreign exchange markets and controls on international trade, and capital transactions. The AREAER Online query tool lets users easily review changes over time and look for similarities and differences in policy components. The AREAER archive on eLibrary reaches back to 1950, the first year of publication.

elibrary.imf.org

IMF eLibrary puts global economic knowledge at your fingertips, with almost 20,000 publications and the most complete electronic archive reaching back to the IMF's inception.

With the most comprehensive collection of IMF content and helpful tools, the eLibrary is constantly expanding to improve the research experience. Some features include:

Subject and Country Microsites

Microsites let users quickly and easily find all the IMF resources on important areas of interest, such as Inequality and Inclusive Growth, Capital Flows, Macroprudential Policy, Environment and Climate Policy, Brazil, China, India, Russia, South Africa, Nordic Publications, America Latina, and ASEAN. Simply click on the "Subject" or "Country" link at the top of the IMF eLibrary homepage to access curated content including publications, data, and video.

Related Content

When a document is opened on screen, users will now see a link to Related Content next to the other document navigation features. Related Content offers users links to additional documents that are relevant to the open document. Links include IMF Publications and content from other organizations selected for their relevance to economics research.

In addition...

- HTML, ePUB, PDF, and Mobipocket formats
- Annotation and sharing utility
- Personal accounts for users to save searches and favorites
- Citation tools
- Full text searching
- Alerts for new content
- Custom book creation

Statistical Data

The online statistics collection delivers a browser-based interface to IMF statistics. Search across databases for concept, country, or aggregate information. The full archive is always available, and data timeframes can be customized to any period or frequency at which they are reported. Results can be downloaded in a variety of file formats to facilitate use in further analysis or reports.

All this and more...
